Insert a different letter of the alphabet into each of the 26 blank boxes above to form a game title in each row. Each title will be two or more letters reading from left to right. Each letter of the alphabet will only be used once. The letter you insert may be at the beginning, middle, or end of the title. The game titles are spelled out in consecutive letters, so not all of the letters in a row will be used. Once filled in, my shuffled play list below will help you find the five letter solution to this puzzle!

Good luck and Spiel-On!
